Open 2 to 4 P. M. Except Wednesday and Saturday 7 to 9 P. M.

NEWS VIEWS

E. D. & D. G.

We recall the heart of a fellow who worked in the coal mines most of his life, and then retired three years ago to a small town in the West. He had a wife and three children. He didn't want to waste his life sitting around the house. He decided to start a business as a hobby. He had a lot of money, but he didn't want to spend it all at once. He decided to start a business that would give him something to do. He started a business that would give him something to do. He started a business that would give him something to do.

Rev. David A. Duck, Evangelist

EACH EVENING, 8:00 O'CLOCK

A FRIENDLY WELCOME TO ALL

Mrs. Gene Cross, Mrs. Mae Rita Zump, Miss Ruth Ann Doody, Mrs. Rosa Nash, and Mrs. Ruth McAllister.

Bert Murray, older son of Mr. and Mrs. Bob Murray is reported to be in the hospital. He was taken several days ago with a slight attack of polio. He is under the care of Dr. David Martin.

LOCAL GUARD UNIT
(Continued from page one)

In the annual meeting of the Guard Unit, which will be held on May 14-15, the unit will consider seriously the benefits of Guard Service, and the many opportunities for advancement and pay received while training.

All members of the local Guard Unit are urged to active participation in the recruiting campaign, each Guardsman making an effort to bring in at least one recruit.

Prizes will be awarded to the two highest enlisted recruits. New recruits will also be eligible to compete for prizes.

Men interested in complete details about Guard service and the benefits it offers have been invited to visit the National Guard Armory at 125 S.E. Ave.

Interested young men are invited to attend any of the regular drill periods. The local unit is holding a social hour from 7 to 9 p.m. Parents are invited to attend also.

These drill periods are really interesting and give the boys a variety of lectures and classes, as well as practical demonstration and training." Lt. Cromartie said.

MRS. MONROE SPOKE
(Continued from page one)

Records taken in at the fair by the food booth.

A gift was presented Mrs. Monroe from the unit by Mrs. Edith Kirkman.

Reports were given by Jane Rashley on the 8th District Conference which was held recently in Ft. Lauderdale.

Others members attending were: Mrs. Mary Peters, Mrs. Wanda Wanda, Mrs. Lurline Brown, Mrs. Edith Kirkman, Martha Harrison, Mrs. Mary Alice Anderson, Mrs. Greedle York, Mrs. Alene Morris, Mrs. Jennie Davis, Mrs. Mammie Morris, Mrs. Kiecklifter, Mrs. Mildred Coleman, Mrs. Colleen Morris, Mrs. Helen Johnson, Mrs. Anna Scuaran, Mrs. Virginia Prescott, Mrs. Lois Hare, Mrs. Elizabeth Henderson, Mrs. Joyce Crosby, Mrs. Helen Johnson, Mrs. Anna Brooks 9th District Sgt.-at-Arms, Brooks was a guest.

LOCAL SCIENTISTS ATTEND FLA. RESEARCH INSTITUTE

Dr. W. T. Forsee, Jr., R. W. Stetson, Dr. J. H. Hayslip, Station and N. C. Hayslip, Inland River Field Laboratory, Ft. Pierce attended the Annual Florida Research Institute, April 23-24 in Orlando.

Friday morning there was a panel discussion of problems relative to disease and insect control on vegetable crops and fertilizing vegetable crops.

Dr. Forsee took part in the panel on vegetable and pasture; Mr. Stetson on pasture and livestock; Mr. Hayslip on insect control on vegetable crops.

J. Hillis Miller, president of University of Florida gave the address the dinner Thursday evening.

MUSICAL PROGRAM IS PRESENTED BY ELEMENTARY BAND

Two young groups of students preparing to become full fledged band members in the next year or two were presented in a musical program for the Belle Glade Band Parents' Ass'n. at their meeting recently at the Elementary School Auditorium.

The first group to perform was the newly organized Elementary Band which played some familiar songs, two novelty marches and a waltz. The second group was the Junior High School band, which played the same familiar songs, two novelty marches and a waltz. The third group was the Senior High School band, which played the same familiar songs, two novelty marches and a waltz.

The other portion of the program was handled by the Seventh Grade Band which has previously played at the Memorial Field. They need your support and if given it most likely they will give us some real good ball playing.

MAYOR COLLINS SIGNS NATIONAL CORRECT POSTURE WEEK **PROCLAMATION SPONSORED BY NATIONAL AND LOCAL GROUPS**

Drs. L. S. Jones, Thos. P. Baker and Paul W. Llewellyn

The National and Florida Chiropactor Associations have designated the week of May 1st to 7th as national correct posture week and have the sanction of both the National Congress and the Governor of our State, as well as the Mayor of our City.

The proclamation declares that "the best foundation for a healthy nation is an enlightened citizenry which cooperates with the men of science who minister to people in pain and sickness, and proper posture, especially when developed in young people, is one of the greatest contributors to health in good health, physical endurance, working efficiency and good appearance."

The Mayor, in his proclamation calls "upon all civic organizations, schools and youth training organizations to cooperate." His Honor calls "on every boy and girl especially to learn the habits of good posture and active sports which can do so much to keep us an alert and healthy people."

MISS GAIL ALLISON CHOSEN 'QUEEN' FOR GAY NINETEENS' REVUE

MR. DRAKE ANNOUNCES CONCERT BANQUET

The Belle Glade High School Band will present their spring concert on Sunday afternoon, May 10 at 3 p. m. A variety of selections will be played. Also appearing on the program will be the elementary Band and the Seventh Grade Band. The numbers to be played will be listed in a later issue. Band master Alan Drake will direct the concert.

The Annual Band Award Banquet which is given to all band students from the elementary grades through high school by the Band Parents Ass'n. will be held at the Belle Glade Country Club at 6:30 p. m. Monday, May 11. The dinner will be prepared and served by the band mothers, after which a program of entertainment will be presented. Following this Alan

Drake, bandmaster, will give out all the awards which have been earned by students in this school year. A dance will follow.

GLADES PROMINENT

(Continued from page One)

I. W. Duggan, Governor, Farm Credit Administration, both of Washington, D. C. Mr. Homer Brinkley, Vice Pres. of the National Council of Farmer Cooperatives and Robt. L. Far- rington, Director Agricultural Credit Service of the USDA.

The FFA's and 4-H's participated in the talk-fests, having a representative of each club there take two minutes to explain the project entered in the contest.

The Bank of Cooperatives of Columbia sponsored a banquet and Bill Fifield, Director of Florida Experiment Stations acted as toastmaster.

Mr. Lawrence, as its President.

dent made a report to the assembly on that institutions work during the year.

President Stern presented \$500 each to the 4-H Club of Live Oak and the FFA Club of Bell, Florida.

Others attending from the Glades were Mrs. Price, James Buss, W. C. Bamford, P. J. LaChance, Mrs. Dorothy Simmons, Joe Waddell and Terry Gibson. Past President Price and the Glades directors are jointly enlisted in a campaign to see that Glades FFA and 4-H groups enter the annual contest sponsored by these Co-operators for the coming year.

America's motor trucks, comprising approximately 17 percent of the total motor vehicle registrations, pay more than 33 percent of the total special taxes collected from highway users.

News Of Churches Of The Glades Area

KATHLEEN LIVINGSTON, Editor

Episcopalians To Name New Mission

The Belle Glade Episcopalians will meet next Sunday night at the home of R. T. Bell, So. Main St. Father John Clarence Petrie will continue his exposition of the Book of Psalms.

Among the names which have been suggested for new mission now being formed in Belle Glade are the following: St. Athanasius, because he was the theologian whose scholarship determined the historic faith of the Church in the Holy Trinity. Our Lady of the Glades or Our Lady of the Lake, putting the work in this area under the patronage of the Lord's mother.

EPISCOPAL VICAR TO SPEAK ON WSWN

The daily devotional program of WSWN at 9:30 am each day, Monday through Friday, will be in charge next week of Father John Clarence Petrie, who is now organizing an Episcopal congregation in Belle Glade.

The topics of the daily talks are as follows:

Monday—Do You Really Want Your Prayers Answered?

Tuesday—How Good Are Good People?

Wednesday—What Do You Want After Death?

Thursday—Whom Do You Admire?

Friday—Are You Hypnotized By A Price Tag?

UNIT MEETING OF LATTER DAY SAINTS

The Church of Jesus Christ of Latter Day Saints had a unit meeting at Fort Lauderdale Sunday. Attending from the Glades were Mr. and Mrs. Julius Herring, Mrs. Hattie White and W. C. Byrd of Hooker's Point and Mrs. H. B. Walker of South Bay.

The Fort Lauderdale Branch has recently sold their chapel and are holding meetings at the old naval base there.

The second branch in Miami dedicated their chapel, which has been under construction for months, April 30 at 7:30 o'clock in the evening. Dedicated services conducted by Elder Milton R. Hunter and Peter J. Ricks, president of the southern states mission.

Elder and Mrs. A. A. Johnson who have been on a mission in the Glades for the last three months, have completed their mission and leave this week for their home at Holliston, Utah. Enroute home they will visit relatives in Virginia, Pennsylvania and Michigan.

Emory University Sponsors Program Of Rural Churches

Emory University is sponsoring a rural church recognition program this year in an effort to stimulate interest and growth among churches of all denominations.

For My yoke is easy, and My burden is light.—(Mt. Matthew XII.50)

There is no one among us today who is not carrying a burden of anxiety, even though he is strong. The greatest help on this earth—if we will but everlastingly believe on Him and enter into His love.

ations in the Rural South. Interest in the Town and Country Church Development Program has grown tremendously during the past few months, according to correspondence received in the office of Dr. Earl Brewer, program director.

Georgia and North Carolina lead in enrollments. At this date there have been 736 entries from 38 different denominations in the 13 Southern States.

With all the groups and agencies working together with the church, there should be a great opportunity for service and improvement.

Churches who have enrolled in the program will be eligible for sixty-six cash awards. The Rural Church of the year will be named for each state and will receive \$500 award. Four churches in each state will receive awards of recognition and contributions of \$100 each. The South's top church of the year will receive the amount of \$1000 award.

RESOLUTIONS

A little less impatient with those we deem too slow;

A little less of arrogance because of all we know;

A little more humility, seeing our worth is slight;

We are such trivial creatures compared to stars at night

A little more forgiving and swifter to be kind;

A little more discerning the word of truth to find;

The word of praise to utter and make a heart rejoice;

A little more careful to speak with gentle voices;

A little more true eagerness to understand each other;

A little more hard striving to help a shipwrecked brother;

A little more high courage to each task that must be done;

These be our resolutions — and God help everyone.

Quoted in The Light, La Habra, Calif.

FOGIVENESS

For if ye forgive men their trespasses, your heavenly Father will also forgive you:

— Matthew 6:14

Being destroyed, sin needs no other form of forgiveness.

— Mary Baker Eddy.

A brave man thinks no one his superior who does him an injury; for he has it then in his power to make himself superior to the other by forgiving it.

— Alexander Pope.

The noblest revenge is to forgive.

— Italian Proverb.

Hath any wronged thee? Be bravely revenged—slight it, and the work is begun; forgive, and it is finished. He is below himself that is not above an injury.

To err is human; to forgive divine. — Alexander Pope.

Churches of Christ Scientist

"Believe me, sir, never a night goes by, be I ever so tired, but I read the word of God before I go to bed."

— Douglas MacArthur.

The individual witness is not the only indispensable factor in winning souls to Christ, but the church is another. Since Jesus organized the church, although it may have had to function in secret, it has not ceased to do so.

Jesus gives us a picture of the church at work. He saw clearly that without a church with which to carry out His saving purpose He would ultimately fail. The church in the thought of Jesus, is not a body of pious people who have withdrawn from the world to save their own souls; it is a conquering army of redeemed men and women who go out under the

DR. DAVID A. DUCK TO BE EVANGELIST

The Community Methodist Church of Belle Glade is cooperating in the United Evangelistic Mission throughout the state of Florida from Sunday, May 3, through Friday, May 10. Dr. David A. Duck, a prominent minister of Savannah, Georgia, will be the Evangelist and will preach next Sunday morning and each evening of the week, at 8 pm.

A great Youth Rally for the Methodist churches in the Glades area will be held in the Community Methodist Church, next Saturday evening, May 2, at 8 o'clock. Rev. Duck will be the inspirational speaker.

Evangelistic services will be held in every Methodist church in Florida simultaneously during this period. A cordial invitation is extended to the public.

HOW READEST THOU?

"It is one thing to read the Bible through. Another thing to read to learn and do.

Some read it with design to learn to read. But to the subject pay little heed. Some read it as their duty once a week. But no construction from the Bible seek. While others read it but with little care, With no regard to how they

read, nor where. Some read to bring themselves into repute. By showing others how they can do as dispute; While others read because their neighbors do. To see how long 't will take to read it through. Some read it for the wonders that are there — How David killed a lion and a bear; While others read it with uncommon care, Hoping to find some contradictions there. Some read it if it did not speak to them. But to the people at Jerusalem. One reads with father's specs upon his head. And sees the things just as his father said. Some read to prove a pread-

ed creed. Hence understand but little that they read; For every passage in the book they bend To make it suit that all important end. Some people read as I have so often thought. To teach the book instead of being taught; And some there are who read it out of spite, I fear there are but few who read it right. But read it prayerfully, and you will see. Although men contradict, God's word agree; For what the early Bible prophets wrote, We find that Christ and His apostles quote. So trust no creed that trembles to recall

Outline for INTERNATIONAL SUNDAY SCHOOL LESSON, May 3, 1953

LESSON TITLE — "PAUL AS TEACHER AND PASTOR" SCRIPTURE — Acts 19:8-10; 20:17-27

Introduction:

Today's lesson takes place in Ephesus, the most important city in Asia Minor. This work is the last major activity of Paul as a free man. The experiences at Ephesus are typical of the spread of the growing Christian movement in a large pagan city.

I. The Acts: Acts 19:8-10

Paul again tries to reach the Jews in the synagogue, but finds them at once not receptive.

II. The Elders at Ephesus: Acts 20:17-38

In this farewell speech to the Elders, Paul gives us a moving description of his work there.

First Baptist Church Belle Glade

THIS WEEK'S SERMONETTE

The Indispensable Factors Of Winning Souls To Christ

By U. W. Malcolm, Pastor, First Baptist Church

You and I are greatly concerned, and rightly so, about winning the lost to Christ. No great work could be undertaken than that. And there are three indispensable factors of winning souls to Christ; the individual witness, the church, and the Holy Spirit.

God desires to convince the peoples of the earth of His truth and mercy and to bring them to salvation. This He must do by human witness. He plans conditions for their witnessing and empowers them in it. And thus, the individual witness is an indispensable factor of winning souls to Christ. Jesus said, "As my Father hath sent me, even so send I you."

The word "witness" is a legal term. You must know by experience that to which you testify. You must be of good character in order for your testimony to bear weight. The more simple, direct, and sincere your testimony, the more impressive it will be. The first impulse following the spiritual awakening and remaking of life is to share the experience with others.

The individual witness is not the only indispensable factor in winning souls to Christ, but the church is another. Since Jesus organized the church, although it may have had to function in secret, it has not ceased to do so.

Jesus gives us a picture of the church at work. He saw clearly that without a church with which to carry out His saving purpose He would ultimately fail. The church in the thought of Jesus, is not a body of pious people who have withdrawn from the world to save their own souls; it is a conquering army of redeemed men and women who go out under the

leadership of Christ to overthrow sin and establish righteousness. Not by coercion or persecution, but always by fearless witness to the truth in love.

Paul, also pictures the church as active and diligent in taking the message to the lost. He at once recognized Jesus, not only as the Messiah, but as the living leader of a powerful organized movement.

The church should seek to bring the kingdom to all men and all men into the kingdom. If the church has the one remedy for sin and the only antidote for death—why not make it known? Without the church, the truth unserved and unproclaimed would perish from the earth.

And now, there remains one more indispensable factor of winning souls to Christ, and without Him all efforts would be of no avail. "When the Comforter (Advocate) is come, whom I will send unto you from the Father, even the Spirit of truth, which proceedeth from the Father, He shall testify of me." His presence is promised to us. He did not disappoint his disciples. He won't disappoint us. "But ye shall receive power, after that the Holy Ghost is come upon you: and ye shall be witnesses unto me."

We must place great emphasis on this advent of the Holy Spirit. It was an individual experience and a group anointing; a personal infilling and an institutional vitalizing. He came within the personality of each witness and ensouled the church.

Christ is depending upon you and me, and His church, and the Holy Spirit as indispensable factors in bringing the lost to Him for salvation.

What has been penned by one and verified by all."

ALLAN BURRY ELECTED TREASURER METHODIST STUDENT COUNCIL NWU

Mr. Allan Burry, son of Mr. and Mrs. M. T. Barry of 543 S. Main, Belle Glade, has been elected Treasurer of the Student Council of the Methodist Student Foundation at Northwestern University.

Last Sunday evening the newly-elected Student Council was installed in an impressive service in the chapel of the First Methodist Church of Evanston, Illinois.

The Methodist Student Council is made up of five officers and sixteen committee chairmen, in cooperation with the University Pastor, are responsible for giving leadership to the various activities of the Methodist Student Foundation. The Foundation is responsible for the work with Methodist students attending Northwestern University, Kendall College of Education and Garrett Biblical Institute. The Director and University Pastor is Rev. G. Eugene Durham.

"The Bible is of vital importance in teaching freedom—Dictators fear the Bible, and for good reason. It inspired the Magna Chart and the Declaration of Independence."

— Lowell Thoms.

Mrs. Annie M. Cooper returned from St. Mary's Hospital on Friday and is recuperating at the home of her son and daughter-in-law, Mr. and Mrs. E. Cooper, Jr. She plans on visiting her other son and daughter and their families before returning to her own home.

Mr. and Mrs. Dick Miller have the piling in and foundation laid for their new home on Bole Ave. Mrs. Miller and the children are remaining in Okeechobee until the close of school.

Mr. and Mrs. C. B. Ming of Orlando were weekend house guests of Mr. L. O. Ratley, Mr. and Mrs. J. W. Hawkins of Miami were house guests of Mr. and Mrs. O. H. Martin. Mrs. Ratley, her house guests and daughter, Miss June Ratley joined the Martins for Sunday dinner.

Mr. and Mrs. Johnnie Kitchens of Georgia have taken the Starling cottage recently vacated by Earl Simmons.

Cecil Kersey is a patient at the Clewiston Hospital.

Rev. and Mrs. Taylor of All-

Shore, Minnie Mae from Georgia, have returned from a two weeks vacation visit with her son, Major J. E. Goodbread and family in Washington, D. C. and relatives in Quitman, Ga.

Mrs. P. E. Goodbread and son, Howell have returned from a two weeks vacation visit with her son, Major J. E. Goodbread and family in Washington, D. C. and relatives in Quitman, Ga.

Mrs. Minnie Heister has as her house guest her daughter, Minnie Mae from Georgia.

P. D. Crichfield of Sebring is visiting his son and family here this week while Mrs. Crichfield is attending a convention in Miami.

Rev. Harry Wilson, former pastor of the South Bay First Baptist Church, now serving the church at Starke, is a patient at Mercy Hospital in Miami. He is reported to be quite ill.

J. A. Henderson of Lake Harbor suffered a shoulder injury in a highway accident at Lake Harbor Monday. He was given first aid at the Belle Glade Memorial Hospital and released to his home.

Mrs. G. J. Barstow and house guest, Miss Queenie Bilbo of New York City attended a house party at the home of Mr. and Mrs. C. E. Archer in Tampa over the weekend. It was in the nature of a reunion of four former Cresdon, Iowa school mates and Psyche Club members.

The American Legion, Everglades Post No. 161, elected officers at their regular session at the Legion Hall Monday evening.

Y. E. Shith of Lake Harbor was elected Commander, Frank Wilson first vice-president, R. O. Plank of Lake Harbor finance officer, W. C. Pate of Bare Beach sergeant-at-arms, C. C. Allen historian, J. M. Jackson of South Shore Plantation chaplain, Eric D. Hartline, adjutant.

AUXILIARY SPONSORING BRIDGE-CANASTA PARTIES

The American Legion Auxiliary is sponsoring a series of bridge and canasta parties on Tuesday evening at the South Bay Legion Hall 8:30 p.m. according to the announcement of Mrs. Ida Vee Walker.

Prizes will be offered each Tuesday evening to the winners and refreshments served. The price of admission will be \$5.00, Mrs. Walker stated. The first party was scheduled for April 28.

MARSHA WALKER HOSTESS AT WIENER ROAST PARTY

Marsha Walker was hostess to a group of her friends at an outdoor game party and wiener roast at the home of her parents, Mr. and Mrs. H. B. Walker.

Guests were Joyce Ann Spivey, Jimmie Lou Summerlin, Dean Alford, Warren Austin, Tony Woodham, Wayne Harrel, Neil Walker, Richard Herding, Rhonda Walker, Josephine Martin, Ronnie and Billy Bowen.

GARDEN CLUB ELECTS MRS. EVANS PRESIDENT

The South Bay Garden Club met at the Legion Hall on Wednesday afternoon. Mrs. Mark Challancin reported \$150 added to the treasury from the benefit card party.

Officers were elected for the coming year. Mrs. John L. Evans was elected president. Mrs. Mildred Challancin vice-president, Mrs. Laura Willis secretary, Mrs. Betty Willis treasurer, Mrs. Maunette Jeffries corresponding secretary.

An apricot-papaya conserve was demonstrated by Mrs. Mollie Covell of Okeelanta.

Refreshments were served by

the hostess for the afternoon, Mrs. Bessie Smith of Bean City. Those attending were Mrs. Billie Hartline, Mrs. E. M. Willis, Mrs. F. B. Willis, Mrs. Mollie Covell, Mrs. Lucille Walker, Mrs. Mary Louise Dally, Mrs. Jay Smith, Mrs. Jane Evans, Mrs. Mildred Challancin.

GINGER CRICHFIELD HAS BIRTHDAY PARTY

Mrs. C. E. Crichfield entertained at a birthday party honoring her daughter, Ginger, on her 8th birthday Friday. Games were enjoyed. Blow-out favors and bubble gum were given as favors and refreshments served to Dan, Dick and Doris Willis, Vicki Challancin, Jane Ann and Jean Matasick, Karol and Karen Jadzick, Betty Rodriguez, Jack Michael, Margaret and Juanita Kirchman, Helen and Katherine Zywicki, Ginger, Janet and Genie Crichfield.

FAREWELL PARTY FOR MRS. LEE JOHNSON

A most enjoyable occasion was the assembling of friends for the farewell party for Mrs. Lee Johnson, who will soon depart to make her home in Illinois.

Two contests were enjoyed with Mrs. N. DiStefano and Mrs. Bill Campbell winning prizes.

Many lovely gifts were received by Mrs. Johnson. Mrs. Josephine Larrick and Mrs. Nathan Bolton were hostesses with Mrs. C. A. Thomas.

A delicious salad plate was served to the following: Mrs. H. Hartley, Rowlett Harline, Mrs. N. DiStefano, Mrs. Claudine Warren, Mrs. J. D. Hemphill, Mrs. Lloyd McKinley, Mrs. K. L. Holcomb, Mrs. E. Swinburn, Mrs. H. D. Merriam, Mrs. Euna Thames, Mrs. Alma Mackey, Mrs. Annie McClure, Mrs. Howard Leonard, Mrs. Alma Eldon, Mrs. Geraldine Weaver, Mrs. E. Smith, Mrs. Frank Robertson, Mrs. Dick LeFils, Nola Thomas and Robin Thomas.

EDUCATIONAL TELEVISION

(Continued from Page 1)

ering and construction data and for programming after the erection of the station.

The cost—estimated at from

\$150,000 to \$250,000 per unit, is not always the major consideration as any community to which the channel is assigned can arrange that item readily. It's less than the cost of one, either the modern negro elementary school at Belle Glade, or the recently built unit of the High School.

The actual cost of operating the station \$25,000 to \$40,000 estimated, is neither a serious obstacle in the present scheme of things, merely the cost operating a six or eight teacher unit in the present school system.

The major effect of the educational television will most likely not be on those whom you think of at first consideration when "educational" is mentioned, the kids. Mother father, sister, brother, grandma—everybody will be "educated." There's drama, dancing, singing, dress, make-up, and even public relations for the teenagers, who are looking towards the stage or screen as a possible profession; there's cooking, ironing, washing, house work for Mama's druggery and bridge, canasta, the cooking, ironing, washing, house work for Mama's druggery and bridge, canasta, the cooking, ironing, washing, house work for Mama's druggery and bridge, canasta.

For leisure hours, there's hobbies for dad and selected subjects for each member of the family whatever the trend of thought; then there are subjects of general interest to the whole family to look at and listen to as a group. All this, in addition to the things the primary and high school students want and should have.

Some colleges are offering diplomas in special subjects by television, for a modest fee. Examinations are held, and the diplomas are recognized.

"Educational" or "Community" television, as proposed in this campaign is a rare opportunity for the area covered by the West Palm Beach installation.

The Junior Chamber of Commerce of West Palm Beach is offering to give and group a program telling just what this proposition is, and will be glad to arrange such a program to any reasonably sized crowd.

If you want more information communicate with the Junior Chamber of West Palm Beach.

The one thing most needed is general interest of those who are to be benefited.

In the State of Florida today there are more than 183,000 private and for-hire trucks registered and more than 100,000 "professional" truck drivers.

**CROSS COUNTRY CHATTER**

with
Mac White

During our long training period, the words "safe driving" are drilled into us truck drivers until they become a part of our conscious, our subconscious and our very souls. We Florida truck drivers are humbly proud of our safety record—and our losses are too. And they show their appreciation in many ways.

For example, the Florida trucking firm I work for bought some acreage along a beautiful river near Florida's west coast and built a lodge. We drivers who have perfect safety records, together with our families, get a week's vacation at the lodge, free of charge. As a matter of fact, we get two weeks' vacation with pay and one full week in one of the comfortable cottages. The company pays out our travel expenses and, with incidentals, such as fishing licenses.

In my firm, between 98 and 100 truck drivers, their wives

and children get this wonderful vacation every year as a reward for safe driving. I think it's pretty swell. Since this vacation plan was started two years ago, my company has not had a single preventable accident.

Then, of course, every year, various trophies and awards for safe driving are presented by the Florida Trucking Association and by the American Trucking Associations, Inc. You have probably read about these awards in your local newspaper. Some outstanding truck drivers have "won" \$12,000, furnished homes.

But there's another side to this story... In my company one preventable accident means a week's layoff without pay; two preventable accidents, two weeks layoff without pay and... three... well, that's like the third strike, brother! You're out!

It all adds up to safe driving and highway safety—your safety and mine.

Outline Of Work In Progress At Everglades Experiment Station

(Continued from Last Week)
CHEMISTRY

Soils: Study of the effect of various calcium sources, of rock phosphate combined with rock phosphate, and of partial substitution of sodium for potassium on pangola-clover mixtures growing on Immokalee sand.

Studies on availability as soil amendments and foliar sprays of copper and manganese from various source materials.

Studies on availability to rice and other crops of iron from various source materials.

Survey of chemical analyses of pasture grasses and legumes as affected by soil types and fertilization practices.

Operate soil testing laboratory for limited service to local growers and for staff research soil samples.

Determination of optimum fertility levels as indicated by soil and tissue tests for crops growing on peat, muck and sandy soils.

Plant Nutrition: Study of the variation in potassium in crops growing on peat and muck soils.

Study availability to pangola and St. Augustine grass of copper from various rates of both copper oxide and copper sulphate.

Study of the variation in molybdenum contents of winter forage crops with respect to variations in nitrate.

Make necessary chemical analyses of soils, plant and animal samples from experiments conducted in cooperation with other staff members.

Effect of foliar applications of nutrients as a supplement to standard fertilizer practice for various crops.

Study substitution of sodium for potassium in crops growing on peat and muck soils.

Study availability to pangola and St. Augustine grass of copper from various rates of both copper oxide and copper sulphate.

Study of the variation in molybdenum contents of winter forage crops with respect to variations in nitrate.

Make necessary chemical analyses of soils, plant and animal samples from experiments conducted in cooperation with other staff members.

Effect of foliar applications of nutrients as a supplement to standard fertilizer practice for various crops.

Study substitution of sodium for potassium in crops growing on peat and muck soils.

Study availability to pangola and St. Augustine grass of copper from various rates of both copper oxide and copper sulphate.

Study of the variation in molybdenum contents of winter forage crops with respect to variations in nitrate.

Make necessary chemical analyses of soils, plant and animal samples from experiments conducted in cooperation with other staff members.

Effect of foliar applications of nutrients as a supplement to standard fertilizer practice for various crops.

Study substitution of sodium for potassium in crops growing on peat and muck soils.

Study availability to pangola and St. Augustine grass of copper from various rates of both copper oxide and copper sulphate.

lesser corn stalk borer and sugarcane borer.

Chemical and biological control studies of insects affecting sugarcane.

Horticultural Crops: Studies on control of corn earworm including:

Time, interval, and number of applications.

Phenological studies on earworm egg deposition to determine most economical control for use in different planting seasons.

Effectiveness of parathion dusts and emulsions when corn silks in November, April, June or September.

Selection of varieties with open habit, or leaves before silks, to facilitate accurate spray application.

Control of celery insects including:

Tests of phosphate insecticides for control of aphids.

Biological studies on the celery tortrix.

Other studies including:

Biologies of leaf feeding thrips on beans.

Tests of various insecticides and combinations for control of insects on cruciferous crops.

Studies of subterranean pests in sweet corn and sugarcane.

Tests of various insecticides and rates and methods of application for control of wireworms in sweet corn and sugarcane.

Survey to determine species of nematodes in the area.

Flooding and paddy rice rotation for control of root knot nematode.

W. H. Thang and W. C. Genung (Experiment Station) and B. D. Quast (U.S.D.A.)

coop. with Agronomy, Horticulture, Pathology, U.S.D.A.

FIBERS

Agronomic: Varied and observation trials of ramie, kenaf, sansevieria, and other miscellaneous fiber plants.

Fertility experiments.

Time and frequency of harvesting.

Defoliation studies on ramie.

Introduction and observation of new varieties from various foreign countries.

Breeds of kenaf for disease and nematode resistance.

C. C. Seale (Experiment Station) and E. D. Gangstad, J. B. Tate, T. E. Summers and J. F. Joyner (U.S.D.A.)

Engineering: Development of planting and

harvesting machinery for ramie, kenaf and sansevieria.

Development of processing methods and machinery for ramie, kenaf and sansevieria.

Three stage pilot drier.

Harvester-ripper.

New type wheel and knife for raspirot decorticator.

M. H. Byrom, H. D. Whittemore, J. C. Coker (U.S.D.A.) and J. W. Randolph (Experiment Station).

Technology: Chemical and mechanical deumming of fibers.

Quality measurements (flex, tensile strength, fineness (denier), etc.) on fibers as influenced by variety, cultural methods and processing.

R. V. Allison, coop. with Agronomy, engineering and U.S.D.A.

HORTICULTURE

Vegetable: Variety and strain trials with sweet corn, beans, cabbage, head lettuce, other miscellaneous crops.

Breeding program on snap beans and celery.

Studies of pelleted seed as a method of reducing hand thinning by precision planting.

Studies of Helminthosporium disease of corn.

Corn earworm control on DDT formulation studies.

Fungicide trials for control of tomato diseases.

Tomato variety and line testing.

N. C. Haylip and J. F. Darby, coop. with Agronomy, Chemistry, Sugarcane, Entomology and Pathology.

PLANTATION AND FIELD LABORATORY (Ft. Lauderdale):

Vegetables: Variety and strain tests of beans, squash, pepper, eggplant, cucumber and miscellaneous vegetable crops.

Fertilizer and lime requirements.

Nutritional sprays.

Disease and insect control.

Effectiveness of cover crops in maintaining fertility and soil organic matter.

Agronomy: Adaptability of grass and clover varieties.

Fertilizer and lime requirements of pastures.

Sources of phosphate and potash.

Relation of chemical composition of pasture crops to soil treatment and other management practices.

Adaptability of various cover crops.

F. T. Boyd and Max C. Hamilton, coop. with Chemistry, Pathology, Entomology and U.S.D.A.

COUNTY BREEDERS HAVE

USE OF SUPERIOR SIRE

Palm Beach Breeding Association announced today that their Jersey Bull Committee has unanimously approved the purchase of Donna Dandy Sultan, R.J. 480278, by American Breeders Service for use in artificial insemination service rendered local dairymen by their organization.

"Donna" to use his short name, is a big, deep bodied, straight, solid dark fawn bull, classified "Very Good." He was listed in the February 25th Jersey Bulletin as a Superior Sire with 10 tested daughters averaging 9,986 lbs. of milk, 5.1% test, and 505 lbs. of butterfat and classified daughters averaged 85.68%.

"Donna" was purchased from

Edward L. Young, of Florence, South Carolina. He was bred by J. L. Hutchison, Jr., Happy Valley Farm, Rossville, Georgia.

He was born September 11, 1940, and is now almost six years old. Although eleven daughters have completed lactation only nine dams have records, which gives "Donna" a nine daughter-dam comparison American Index of 10,701 lbs. of milk, 4.75% test and 503 lbs. of butterfat on a 305 day, 2X, mature equivalent basis.

Palm Beach Breeding Association will furnish service from "Donna" to dairymen in the county at no advance in fee.

models and visual demonstrations depicting how the Chrysler Corporation has made vehicles safer, more dependable and more comfortable will be presented in "New World's in Engineering."

Sparkling highlight of this dramatic show is the striking new "idea cars," the K-210, the C-200 and the Chrysler "Special." Another feature of the exhibition is the Plymouth transparent chassis, with more than 1,200 moving parts, which is an exact model of a production car. The chassis weighs one ton and operates under a spectacular black light canopy.

Chrysler's experimental 353 horsepower engine is also on display. Called the A-353, this higher compression version of the standard Chrysler FirePower V-8 engine uses high-octane gasoline.

James E. Zeder, Chrysler Corporation vice president and director of engineering and research, reports that this achievement was accomplished without increase in the size of the engine or the use of supercharging. Last year, Chrysler engineers developed another experimental engine, using standard compression and burning regularly-available premium-type fuel, which produced 308 horsepower. Mr. Zeder described the A-353 as showing power outputs greater than any

other known passenger car designs using standard fuels or stimulated with super fuels.

A feature of the show includes the miracle of full-time power steering. Visitors will be able to make their own demonstration of this marvel in fingertip steering with which Chrysler has opened new avenues in driving comfort.

Other features include cutaway models of Chrysler engines, color-blindness charts, electric window lift cutaway, the operation of the polariscope, fabric testing equipment, automobile air conditioning and a model of Chrysler Corporation's engineering plant.

The story of the development of brakes, generators, transmissions, suspension, lights and riding comfort is also told in "push button" displays. A fully equipped road test car, a camshaft checking machine and a stroblight demonstration are among other features.

A replica of an electron microscope producing magnifications up to 100,000 to 1 will be exhibited. So powerful is this microscope used by Chrysler engineers, that the diameter of the head of an ordinary straight pin viewed through this microscope would appear eleven yards longer than a regulation-size football field.

Other exhibits permit spectators to drop a sledge hammer

on a pane of glass to test its nonbreakable safety features, to determine car-seating comfort, and to see the operation and purpose of car panel instruments.

"Anybody who thinks the truth doesn't hurt never told it about a big guy."—Franklin P. Jones.

150 Gallon High or Low Pressure Spray Tank

Four thousand prominent persons from Miami previewed a "push button" exhibition of the fascinating engineering developments behind the modern automobile. This \$1,000,000 "New Worlds in Engineering" show opened in Dinner Key Auditorium in Miami, Florida, last week.

"New Worlds in Engineering" is being brought to Miami by the Plymouth, Dodge, DeSoto and Chrysler dealers in this area.

The imaginative exhibit was conceived by the Chrysler Corporation to reveal the secrets in engineering America's automobiles. It will be open free to the public daily from 10:30 am to 10:30 pm through May 31.

More than 100 animated

Lucille Pletti, first woman engineer to travel for the Chrysler Corporation, will be at the "New Worlds in Engineering" exhibit April 24 through May 31 in Dinner Key Auditorium, Miami, Florida, to answer questions on automotive engineering and design. Miss Pletti, a graduate mechanical engineer, is assigned to Chrysler's technical data and information department when she is not traveling.

Now! Prompt Delivery of

CREOSOTED POSTS & LUMBER

Good for a Lifetime

WE'RE SET UP . . . TS . . .

to fill your orders promptly—whatever size or quantity of posts or lumber you may need—thanks to our continuous program of expansion and improvement in our creosoting plant at Ona. For Example, we have recently built a quarter mile of railroad to aid in efficient handling of our stock. A new post peeler handles posts up to 18 feet long, and as much as 10 inches in diameter. Our fleet of specially designed trucks and trailers makes delivery easy throughout Florida.

LOWEST POSSIBLE PRICES . . .

are yours at Florida Fence Post. Not only has service been improved, but costs have been kept constant, despite nationwide inflation, thanks to bulk purchases of creosote, and reduction of the labor required to make each fence post through use of modern machinery and production methods.

LUMBER, PILING AND POS . . .

are on hand at all times. We retain a stock of more than 300,000 feet of lumber at all times, and we believe we are the only firm in Florida stocking creosoted lumber, piling and post in large quantities. This stock makes it possible for us to fill orders promptly for the materials you may require to build cattle pens, bridges, seawalls, warehouses, etc.

GOOD FOR A LIFETIME . . .

Under actual tests, creosoted posts have lasted 30 years. How much longer they will last, nobody knows. They may last a lifetime. At any rate, no one has ever questioned our slogan "Good for a Lifetime," and don't expect them to. Posts put in use when we first began our operation five years ago are still in A-1 condition.

Creosoted Posts will not split or break . . . staples will not pull . . . No culls . . . every post is perfect . . . They're easier to handle, more uniform in size than any other posts you can use . . . You'll save on fence-building costs enough to more than offset the slight extra cost of these creosoted posts—good for a lifetime.
